INTERNET MARKETING TREE

Concept

It was my attempt to give my clients a better perspective and understanding of how web marketing strategies and tools fit together. By making the website the trunk of the tree, I show the roots that I believe most important, and how promotional and advertising tactics (now known best as in-bound marketing) branch out and feed back into the trunk. As web marketing has advanced and continues to grow, the tree isn't a perfect metaphor to cover every option, but it still provides a realistic perspective. I hope you like this version. It is still a work in progress, so feel free to comment and let me know what changes you'd like to see.

“We believe that the suitable technology and knowledge are our tools for our life to leverage our quality of life and work as their wish.”

INBOUND MARKETING CONCEPT

OUR PORTFOLIO

Digital Marketing Solutions

Our projects is the result of service integration which combines website development, online marketing and graphic design in order to help our clients to achieve the business targets

FRIENDS OF PA, 2017

Business: Non Profit Organization, Thai Red Cross

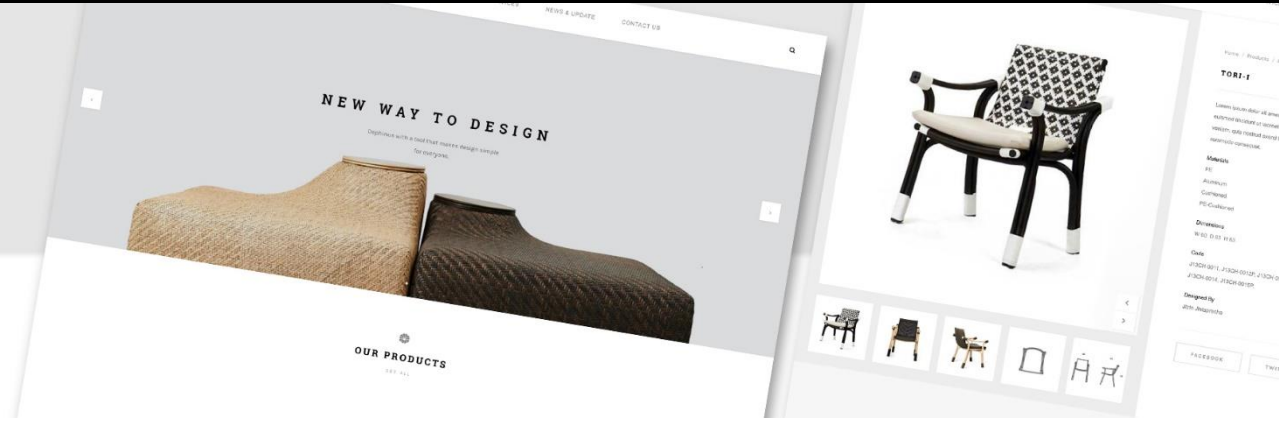

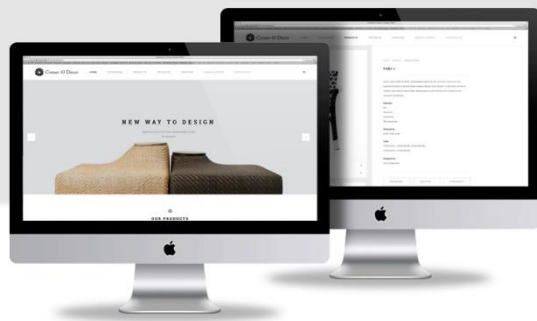

Website Design & Development | Online Registration | Consultant

Friend in Need of PA Volunteer Foundation is the official foundation in Red Cross, Thailand. This foundation has responsibilities to support Thai people.

The committees of foundation intended to develop the channel (website) for helping the organization to announce for volunteer registration and to systematically record the volunteer. After using the system, they can have the chance to obtain more volunteers for each project or campaign. Thus, they; as the result of, can help our Thai people in each location promptly which is better than in the previous time.

In summary, this system can support the foundation to have more chance for business.

www.friendsofpa.or.th

Corner 43 Decor

CORNER43 DÉCOR, 2017

Business: Luxury Furniture

Website Design & Development | UI & UX | Database Management

Corner 43 Decor is a luxury furnishing and home accessories company established in 1987 with a mission to create well designed furniture and decorative items, using locally sourced materials. Corner 43 Decor is the Global Brand who has worked many designers in global class.

The requirement was to design and develop the luxury website page to build the Brand Company Image and to show the product detail for interior designers who are looking for Luxury Furniture for hotel and residence decoration. The design was based on Black and White, Clean and Neat Design. For the website function, we provide the best quality of Back-end section which is supported for linking many database. The web admin can link many products from database to the related pages such as Gallery, News & Press, or Collection. This meant they can save the time for website administration.

www.corner43.com

BLINK, 2015, 2017

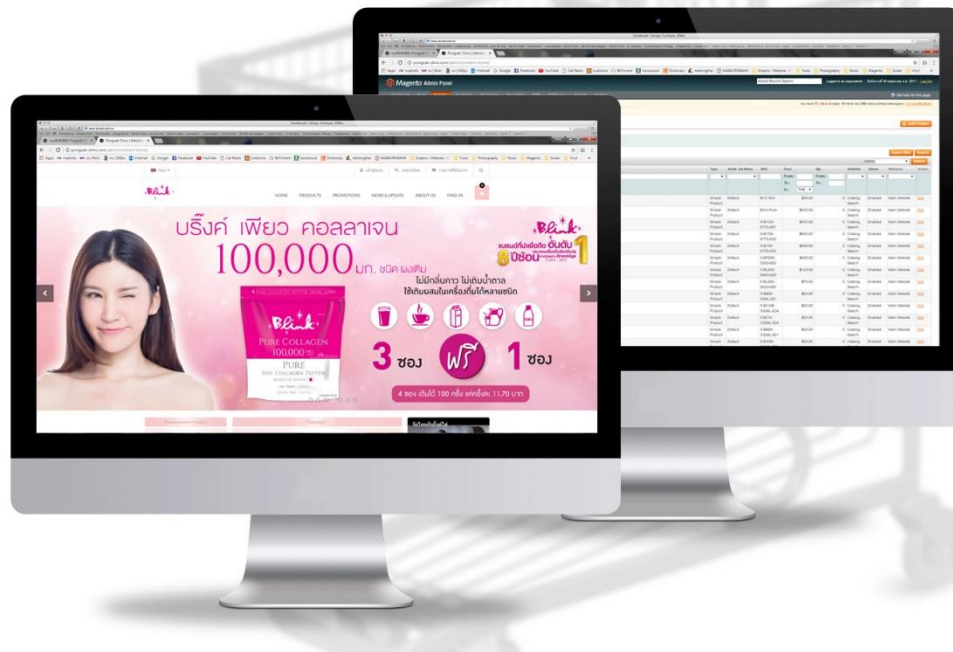

Business: Functional Drink

Website Design & Development | e-Commerce (Magento)

Blink (Collagen Drink) is the first brand of collagen drink. Their customers is girls and teenagers who take care themselves. We have worked with Blink Marketing Team since 2014

The first requirement was to renovate the existing Blink website to show branding (look & feel). Our designer tried to interpret and decode it. Over 2 years, the Blink website could effectively work. Because of our work quality, Blink gave us the second requirement; e-Commerce project. This e-Commerce was based on Magento Platform (1st e-Commerce Platform in the World).

Nowadays, Blink Marketing team can use the websites for their business target, and we are merely web moderators. Moreover, so far, we have support Blink Team since 2014 - more than 10 projects

www.blink.co.th
www.blink.co.th/blinkshop

CHEER CLUB - THAMMASAT UNIVERSITY, 2018

Business: Non Profit Organization

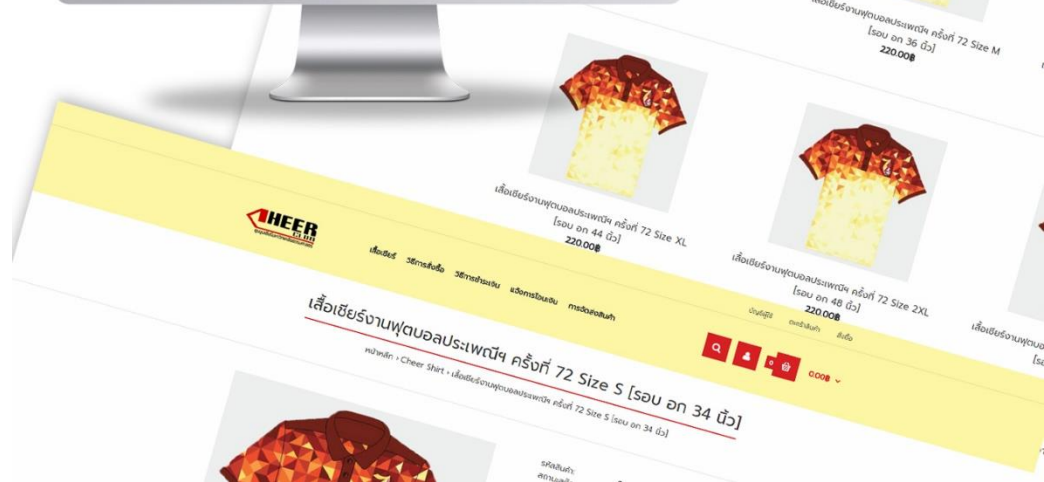

e-Commerce (OpenCart) | Administration | Call Center | Fulfillment Service

Cheer Club of Thammasat University is non-profit student organization to organize the CU-TU Traditional Football in every year. The member of club is Thammasat students, mostly is alumni who used to work the event

One of most important of responsibilities is to distribute the Cheer T-shirts to students and alumni to join this annual event. The pain point, we, as the ex-member, have to solve, is the location of distribution which the store is only physical stores in the university. The club would like to go beyond to create the chance for alumni (90%) to have the T-shirts, and deliver them. The e-Commerce is the key answer. We can help the club by developing the e-Commerce Platform, managing the sale order, and fulfillment service. The consequence is that we can sell and distribute the T-shirt more than 7,000 T-shirts in 1.5 months. They feel very happy on this solution both the process and costing

Thus, this case teach us and client that the e-Commerce platform can access the target market precisely without distance barriers.

www.thamcheer.com

PONGSAK
clinic

PONGSAK CLINIC, 2016, 2018

Business: Medical Service

Website Design & Development | UI & UX, Database Management &
Member Registration & Survey Recording | Instagram Feeding

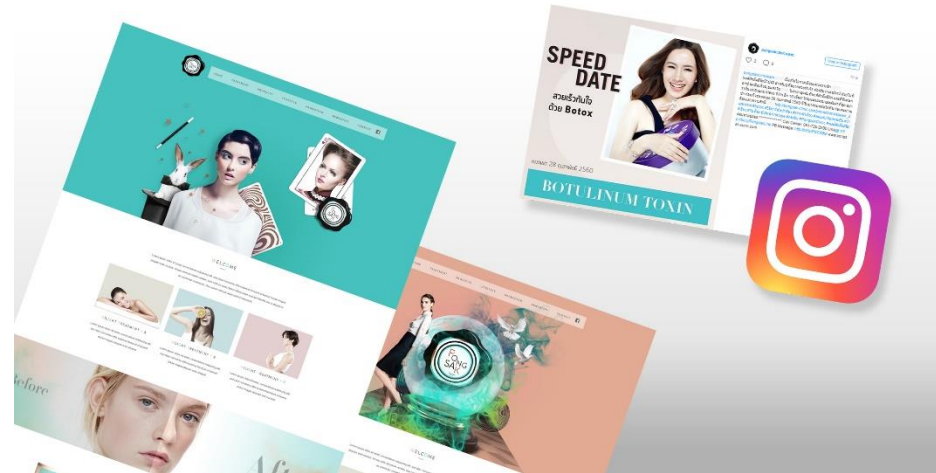

Pongsak Clinic is high-trendy medical brand who is focusing on medical treatment for Thai teenage. This brand is re-branded by new generation to keep them look modern. We worked with Pongsak Clinic Marketing Team to support them in terms of website development following to the new branding CI.

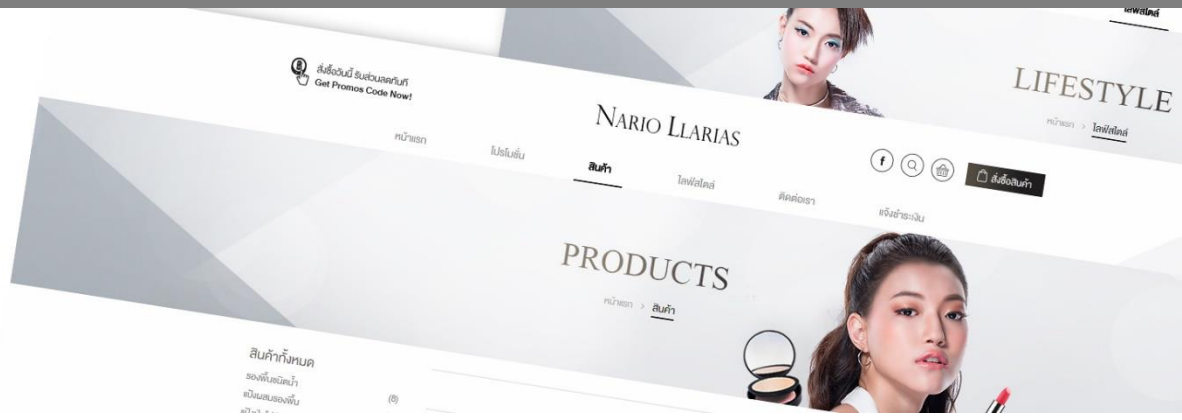

Our received requirement was to communicate the Pongsak Clinic branding through website; moreover they would like to allow visitors play for the survey on the website. The website would record the survey data into the database for exporting for the marketing strategies. For the design, we designed as the Pongsak Clinic CI.

This website is manipulated for users' friendly design so as that the web admin will manage easily. So far, the website admin can still manage the website without any Technical skill.

In 2018, the clinic has the project to renovate the existing design to new version - more compact and less space

www.pongsak-clinic.com

NARIO LLARIAS

NARIO LLARIAS, 2018

Business: Cosmetic
e-Commerce (Magento) | Customized Design

Nario Llaras is the Cosmetic Brand which serve the products to B - C level of customers. They are the cosmetic factory for OEM products. There are various series of products.

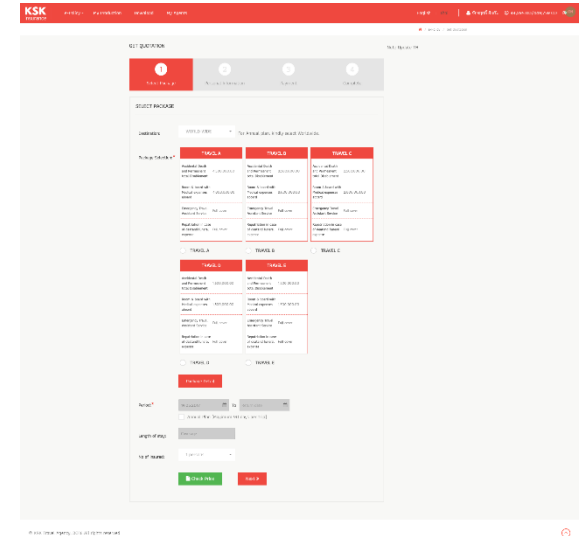

Nario Llaras would like to create the branding into the market by digital marketing, and make more business revenue. The objectives of this project (received from Get Along Well - Digital Agency) are to design and develop the e-Commerce (Magento Platform), to customize the theme, and to set up the e-Commerce system in order to achieve the business growth. In this project, we have support the Nario staff to optimize the system and link all functions as the Nario needs. This project can make more trust on Nario Brand, and increase the market channels.

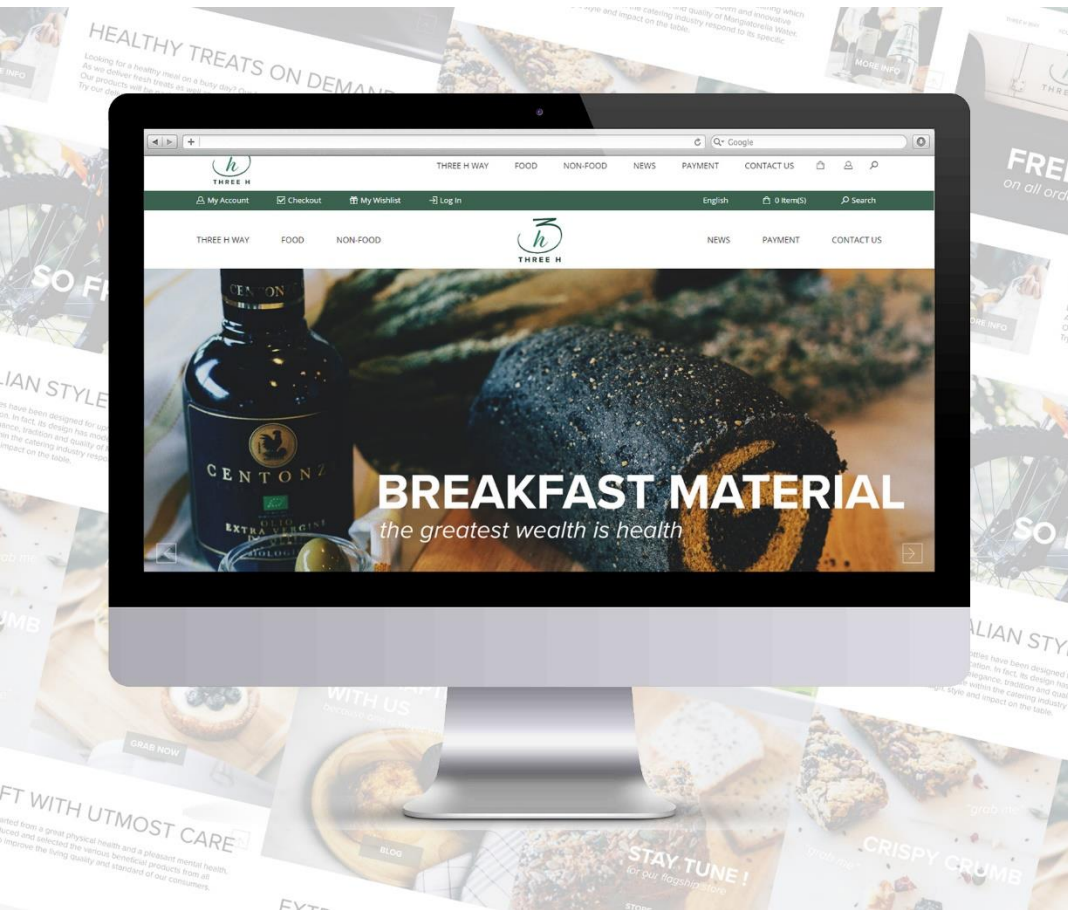

www.nariollarias.com

KSK Insurance (Thailand) Public Company Limited has 9 branches nationwide. Strategic partners include more than 1,000 agents and 400 panel garages. A competent workforce of over 200 employees is ready to provide excellent support and services to its valued customers and business partners.

We have worked for KSK for

- Mobile Application: for Agency to take photos for 1st Class Insurance for premium estimation (iOS/ Android)
- Garage Search: for customers to search/ filter the garages in the partner list
- Travel Insurance Service: for agency to sell the Travel Insurance and link the database back to the core insurance system

3H SHOP, 2016

Business: Organic e-Commerce (under Heritage Group)
e-Commerce (Magento) | Photography

3H Shop is the new brand under Heritage Group. This brand is the trader of organic products both importing and local products. Their inspiration is to promote the life quality of Thai.

To design and develop the Magento (e-Commerce) Platform, we had to design the website in organic concept. The e-Commerce covered many features: Inventory, Member, Order, Promotion, Payment, Shipping and User sections. After we designed, we worked with Magento to connect the Front-end to CMS together, and the last procedure is to place the payment gateway and QC & Testing. Moreover, we also supported the client to find and select the Payment Gateway. Magento is a platform which is ready for many extensions and linking to other systems.

For the website function, we provide the best quality of Magento Back-end which can

www.threeshop.com

BEZ BRAND, 2016

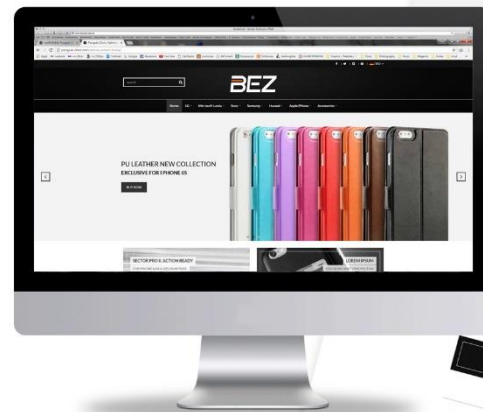

Business: Gadget Distributor
Website Design & Development | Programming | Database
Management & Amazon Web Service Linkage

BEZ Brand is the one of high volume mobile gadget traders to Europe. They seek the quality products from China and trade to Europe by Amazon.de. They try to build the brand: BEZ.

This project was the challenging project because we had to design the BEZ website as the CI, and developed the back-end which had to feed all product information and photos from Amazon.de through Amazon Web Service (ASIN Number). Once, the website admin filled in the ASIN Number and Fetch Data, as the result all information and photos from Amazon.de would be placed on the BEZ Brand Website. The fetched products could be well managed.

This fetching data method is to link the our database to Amazon.de they provide to our web hosting. This method can save the time for filling in the content and reduce the errors, including no need to hire more staff for website management

www.bez-brand.com

ATSIAMSIGHT

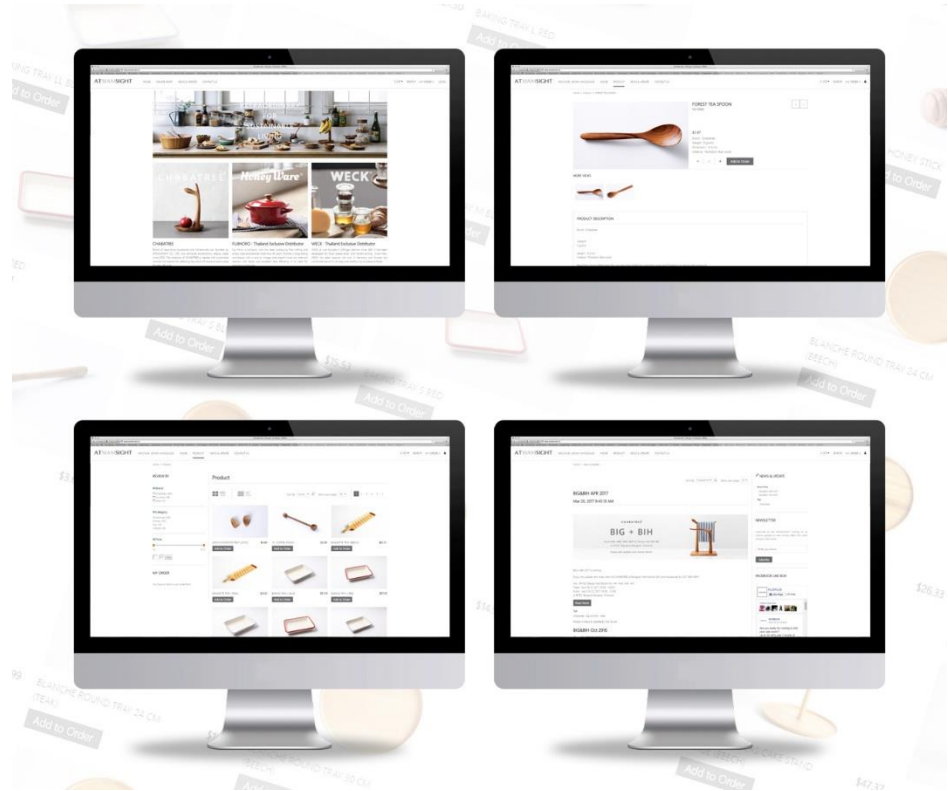

ATSIAMSIGHT, 2016

Business: Handcraft Accessories
e-Commerce (Magento) | Ordering Application

AtsiamSight was founded and creates extraordinary beauty CHABATREE Collection with sustainable manner since 2003. Carefully produce and do business in the way to minimize damage and more responsible to the environment is what we aimed.

AtSiamSight would like to have the operation system for wholesale distributors to order the products each items. The solution is to implement Magento platform for this project. The function of website was adjusted from Magento standard features. When the order arrived into the database, web admin would see and manage by sending summarized quotation to the customers. Only permitted customers can use and order the products. This is the example of implementing the website in operation section in order to save cost and time for company and reduce the error.

www.atsiamsight.com

THAI PLATINUM AIRLINE, 2017

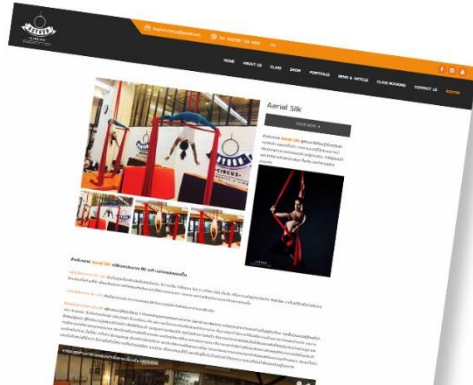

Business: Airline

Website Design & Development

Thai Platinum is the new company which is penetrating into the Airline Business in Thailand. They are the potential airline business which is invested by capital fund .

The goal of website is to build business image for more investors – they would like to announce News and Update of business into the public. The website has nice design and back-end for self content editor. This function is very helpful for non-technical skill staff to update the content on the website.

HOY HON, 2017

Business: Fitness & Activities

Website Design & Development, Web Application

Hoy Hon is the fitness place for Fly Yoga to hang the body in the air. The fitness can provide trainer for each course. The fly yoga is like the circus for showing.

The owner of Hoy Hon would like to create the website for telling the story of the location (fitness place), and for providing the HTML space for embedding HTML code from other website (MindBodyPlatform). In order to consolidate all platforms they have had, the website with back-end (editor) is the key function to support this objective.

www.hoyhon.com

Pineapple Lazy
Beach Villa

PINEAPPLE LAZY, 2018

Business: Luxury Residence

Website Design & Development | Content Development |
Photography

Ideally located along the secluded beach once a fisherman village in Khao Takiab, Hua Hin, **Pineapple Lazy Beach Villas** offers two very relaxed Balinese style pool villas to those seeking coziness. Whether you're looking for a place to make your next family getaway one of the most memorable ones or a place with a beachy ambience to get together with your friends, Pineapple Lazy Beach Villas is sure to suit your needs.

The website answers the marketing objectives by providing the business information for customers decision making. The villa hires us to design and develop the website, content development, and photography - we develop the website concept both image and text. Thus, we are the partner of business management for business achievement in terms of Digital Marketing.

www.pineapplelazy.com

BLUE BOAT TRAVEL MAGAZINE, 2018

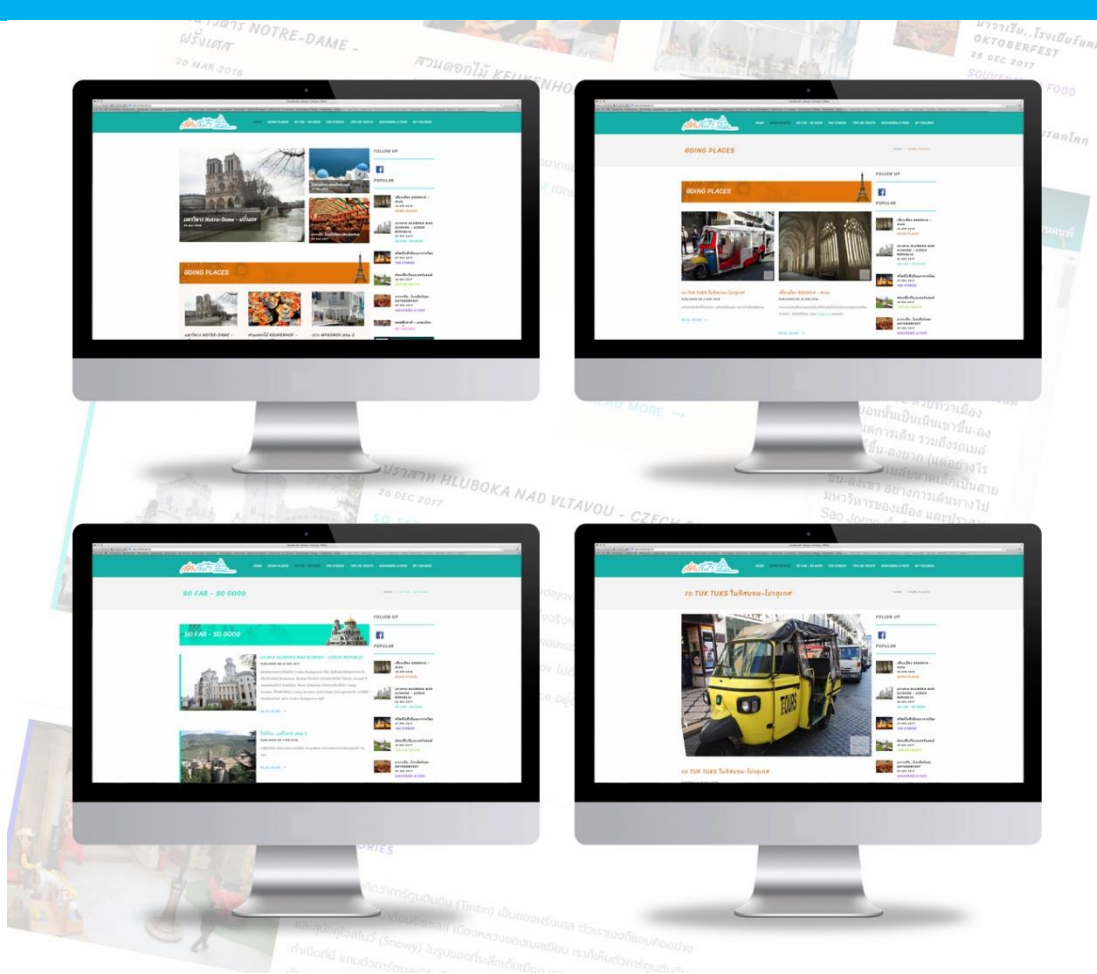

Business: Online Travel Magazine

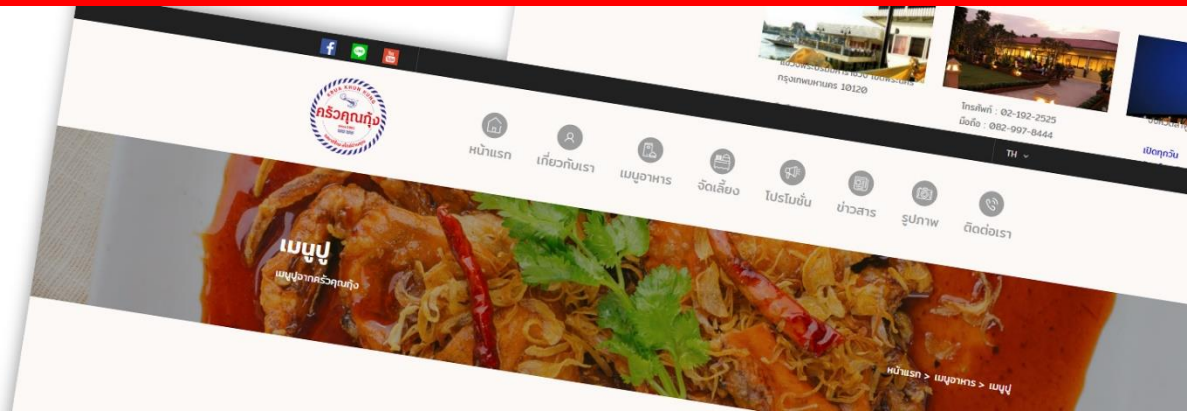

Website Design & Development | Article | AdSense

Blue Boat is the Travel Online Magazine, we together are online partner to provide the travel articles for public. Blue boat is the travelling writer to tell the travel stories under Sarakkadee Publication (Nai Rob Roo).

We build the website to be as the content provider website. The objective of this website is to generate the revenue from Google AdSense when the website visitors come into the website. When the Ad on the Website is clicked, Google AdSense will pay us the money as the Publication Place for advertisers. The content is the travelling stories written by Khun Siriporn Tent who loves travelling around the world and would like to tell the Travelling stories and Tips by written.

www.เรือใบสีฟ้า.com

KRUA KHUN KUNG, 2018

Business: Food Restaurant

Website Design & Development | Content Development

Nestled in a strange location right across from the Grand Palace, **Krua Khun Kung** is doing Thai favorites in a setting that resembles an old conference room. Seat yourself inside if you don't mind the prospect of dealing with middle-aged karaoke warbling and kids running all over the place.

The image can tell more than thousand words, Krua Khun Kung would like to promote and show their food menu images. The food gallery can improve the brand and increase the business value. Once those who would like to organize the catering in some events, they can know how the food menu is and what the food listing in the catering package. These can make customers easier to choose the catering package.

Thus, we can learn that website showing the photos can help customers for making the decision better than offline.

www.kruakhunkung.com

MR.JONES, 2016

Business: Coffee & Bakery Shop

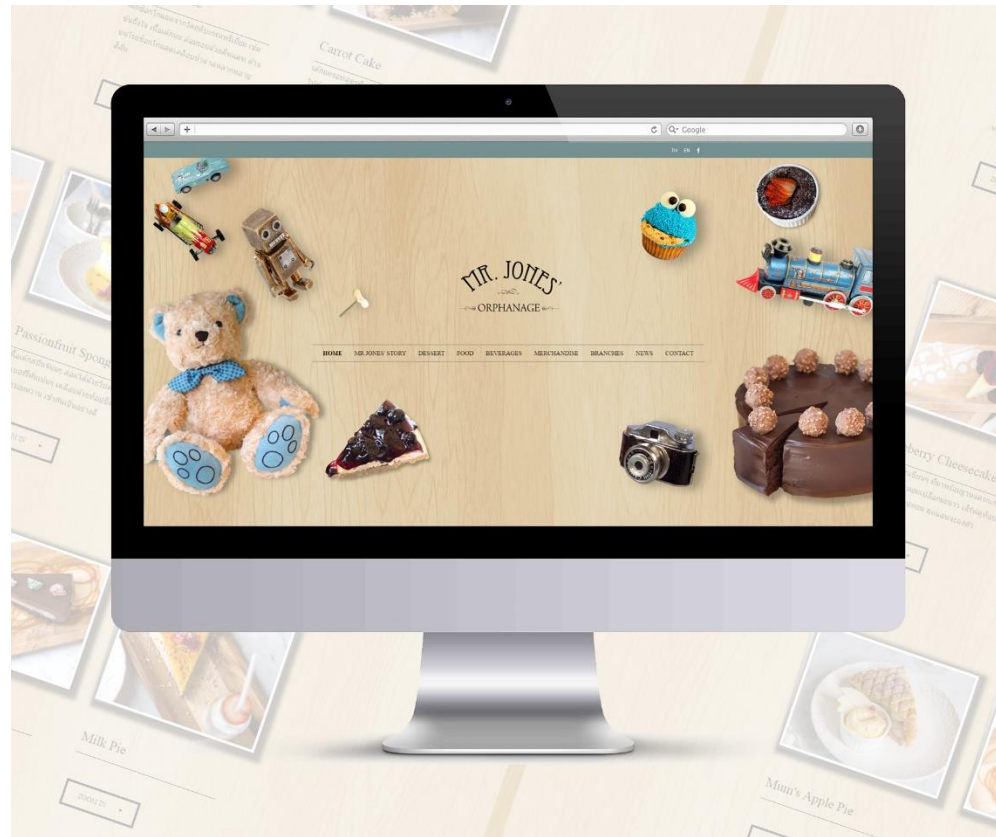

Website Design & Development | UI & UX | Instagram Feeding

Mr. Jones' Orphanage is a whimsical dessert venue with the prettiest and yummiest selections of cakes and flavored milks in Bangkok. This brand has many branches covering Bangkok.

Mr.Jones would like to have the first website reflecting the Brand Image for their customers. The website shows the menu of food and beverage. They tried to use the impact photos to attract the customers to visit their branches. This design of the project was based on wood plank tone, signature bear and antique toys. This website also used Instagram Feed function by determined Hashtag (#MRJONESORPHANAGE)

This website can communicate the functional and emotional branding to customers, and by adding Instagram function, the website can update new photos by using its feeding which is the great way for automatic leverage.

www.mrjonesinternational.com

MAZDA RAMA7, 2015

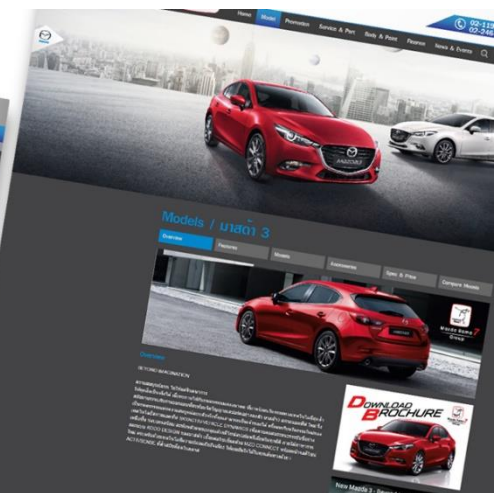

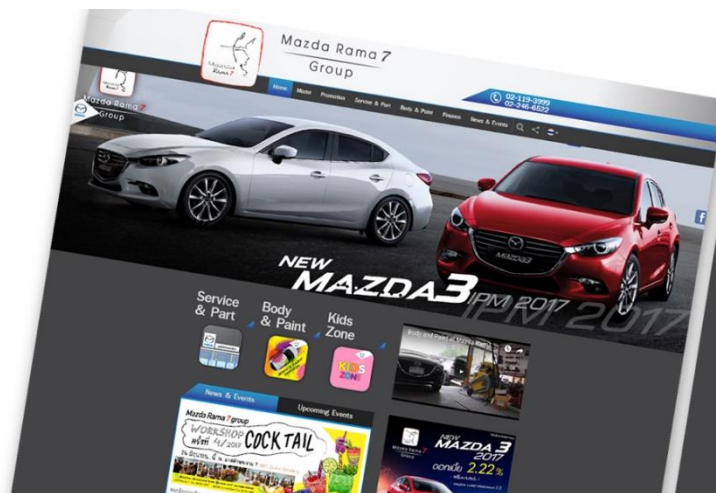

Business: Automotive Showroom

Website Design & Development, UI & UX | Database Management | Online Booking

www.mazdarama7.com

Mazda Rama7 is the one of Biggest Mazda Showroom Chain in Thailand. They would like to show more information about the models for their customers. They have planned to modify the Mazda websites around the world, especially in Australia

This website would like to provide the full version of content much more than the main Mazda website; thus, the structure of website is similar to the directory website which is divided into many sections in one model of vehicles. Moreover, this website also provide the Online Booking for customers to make an appointment for Test Drive, or Maintenance Service. All booking can be managed by web admin. The result is that the website can be reach higher ranking or Google Search Engine because of lots of space for database adding. In addition, the booking function can save the time of staff efficiently.

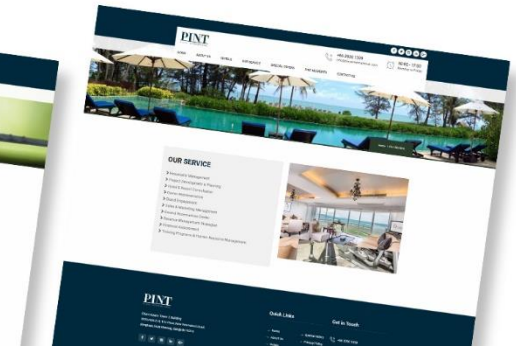

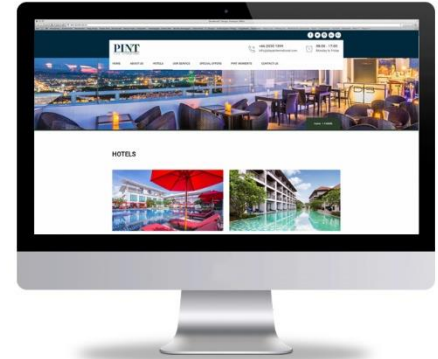

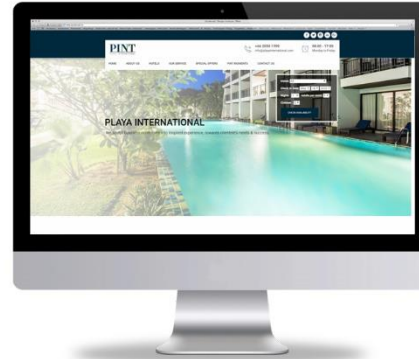

PINT (NUSASIRI), 2017

Business: Real Estate

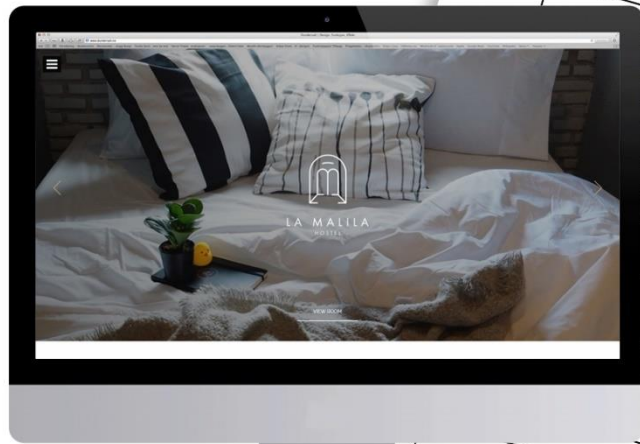

Website Design & Development | Web Service

Through the world leading hospitality industry, **PINT** is founded with the objectives to profess as efficient initiative in hospitality & management orientation. We expedite productivity by mitigating risks, optimizing efficiencies and utilizing what existing into sustainable results.

This website is the space for displaying the properties and detail. Moreover, the website can be embedded the Booking System from other Source onto the website. This website is consisted of Front-end and Back-end. As mentioned by Pint staff, the Back-end can be easily used by Non-technical skill staff. They have used them in order to update the content on the website which it always makes the website more fresh.

www.playainternational.com

LA MALILA
HOSTEL

LAMALILA HOSTEL, 2018

Business: Luxury Residence
Website Design & Development

La Malila Hostel is a stylish but yet affordable priced hostel for all travelers who are looking for inspiration in Udon Thani. La Malila is not only a hostel but also a well-designed home under our motto ...

"Every journey should end with something sweet"

The website is Parallax website to show the lifestyle of the hostel and gallery and the website users can book the room by using inquiry box.

www.lamalilahostel.com

SCANIA, 2016

Business: Vehicle Distributors

Website Design & Development | UI & UX

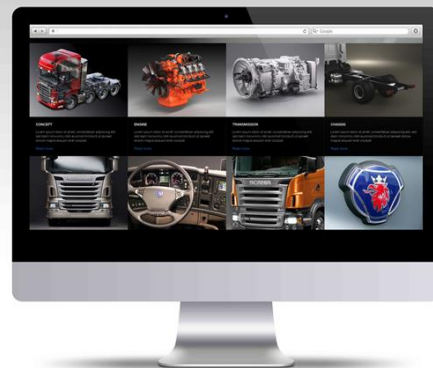

Scania has the world's widest range of sustainable transport solutions – they are all here for you to explore.

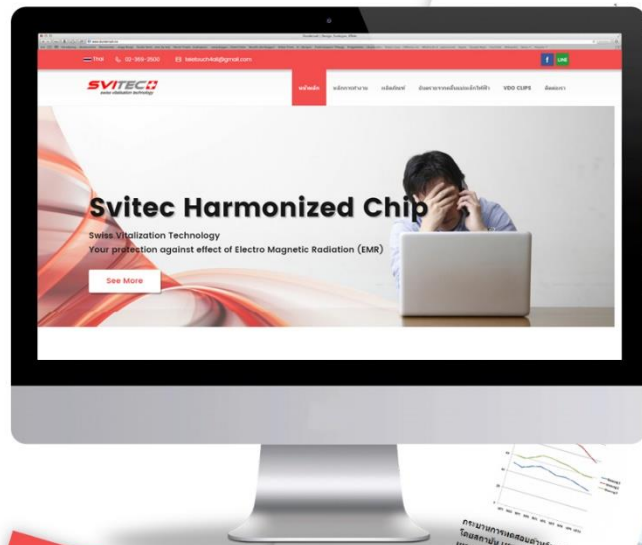

The Result:

Scania Sale Tool: for Sale team to use as the main information tool which can be updated all times in order to

- establish the standard of product communication,
- reduce the conflict among team,
- support new staff for leaning the products and
- build brand image for customers

Scania has used this tool to train new staff, and recap existing staff to reduce the conflict of content among team.

SVITEC, 2017

Business: Swiss Innovation Chip

Website Design & Development | UI & UX | Content Development

SvitecThailand is a partnership between Svitec Company GmbH and Teletouch Company Limited. We are distributed "Svitec Harmonized Chips", using the technologies developed by Penergetic and Rayguard. The chip is programmed with specially selected information. This information protects user from negative effects of radiation and enhances their well-being.

The requirement is to educate the product information because of complicated product to understand how it works, so the structure of website informs the story. For the design, we tried to use only Look & Feel from official Svitec website and adjust to Thai version. We consulted and suggested the owner to follow the structure of official website since it would be easily managed the content and photos.

This website can give product information for users, and is a sale tool.

www.svitecthailand.com

KPS DAIRY FARM, 2017

Business: Non-profit Cooperation
Website Design & Development | Content Development

KPS Dairy Farm is the high potential dairy cooperation in Thailand which promote and support the dairy farmers who have livestock. On this project, we worked with Marketing Team of KPS Dairy Farm. The objective of website was to communicate the lifestyle of cooperation, and upgrade the brand image to the AEC scale via website. This website also was the main communication channel for cooperation members. They will visit the website to update News and Information as many content sections we have provided such as Business, News & Updates, Career and Company Profile sections. In this project, the content and photo is provided by KPS staff.

The hidden objective is that the web admin who is non-technical skill can maintain and update the website themselves to save cost of M&A

www.kpsdairy.com

MARA HOUSE

MARA HOUSE, 2017

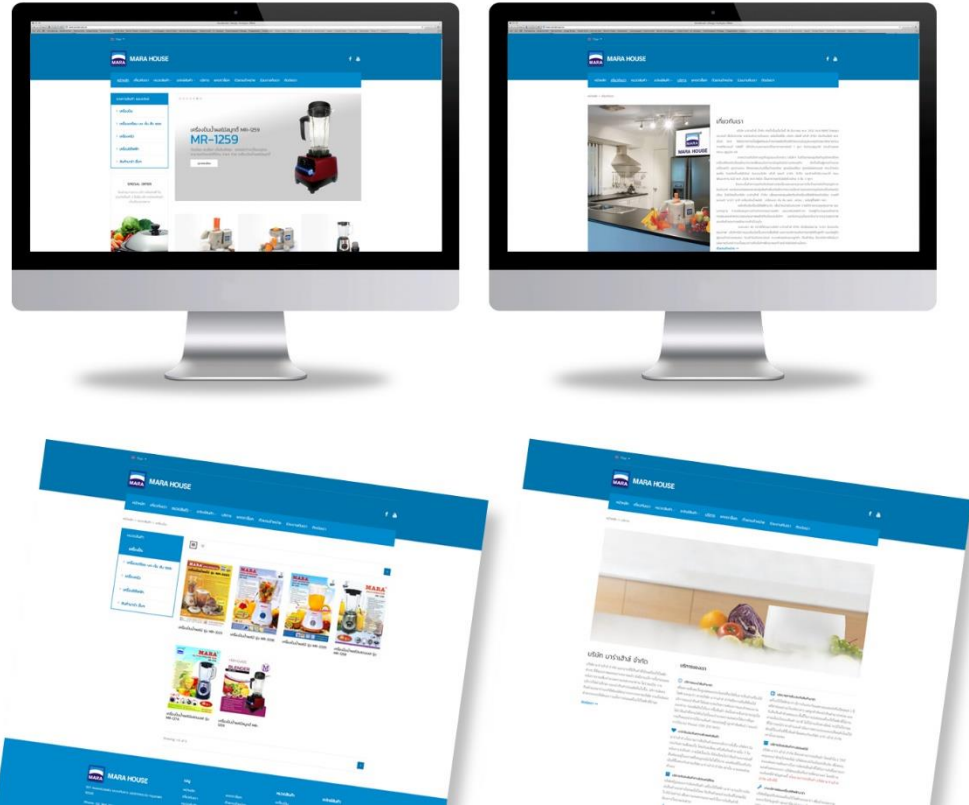

Business: Kitchen and Home Appliance
Website Design & Development | UI & UX

Mara House is the local direct sale brand of electric home appliance such as Blender, Vacuum, Kitchen Set or etc. They sell the product and give the reparation service. They have never had the website for their customers before.

The objective of this website concentrated on supplying the product and service information for customers and distributors. The website provides product information and spare parts of each product to ensure that their customers will well understand them. They would not like to directly sell the products to customers; they just provide the information.

When the website has launched, the customers can reach into the official website in order to learn the all products (new & existing). The web admin is able to manage to data themselves.

www.marahouse.co.th

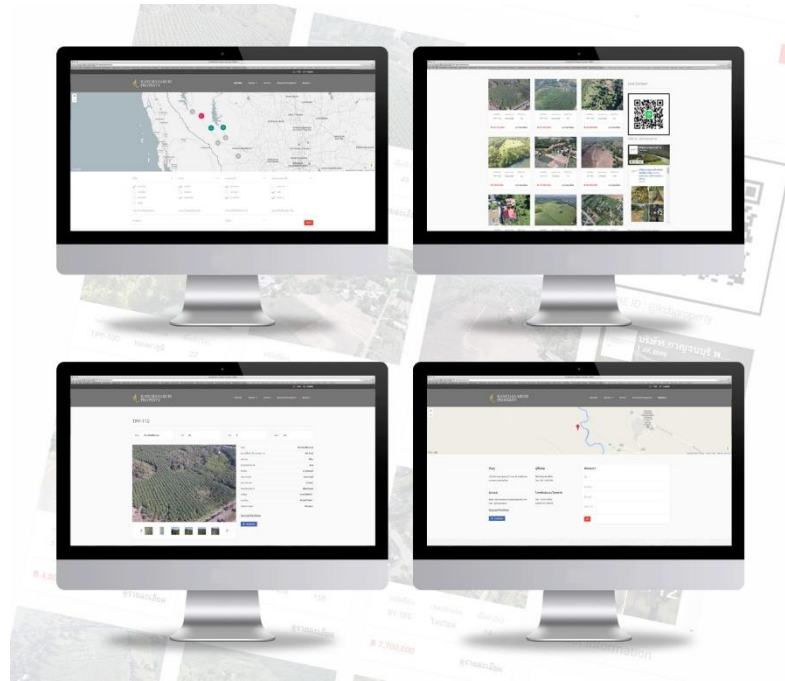

KANCHANABURI PP, 2015

Business: Property Management
Website Design & Development | UI & UX | Directory | Google
Map Integration

Kanchanaburi Property is the property agency, focusing on selling the Land in Kanchanaburi Province. This project was assigned from the owner of MS. Natural Design. He is happy to me from the previous project we have developed.

This structure of project was designed as the website directory, and would like to show by location service, by using GPS on Google Map which was embedded on the Home Page. Customers could search and filter lots of lands in the database and see their location with full detail. This website is so simple to customers' use.

The web admin can well manage the website. They can insert the properties into the database. On each property detail page, the web admin can show many types of information such as clip (YouTube embedded), and GPS.

www.kanchanaburi-property.com

MS NATURAL DESIGN
Thailand

MS.NATURAL DESIGN, 2014

Business: Furniture Shop

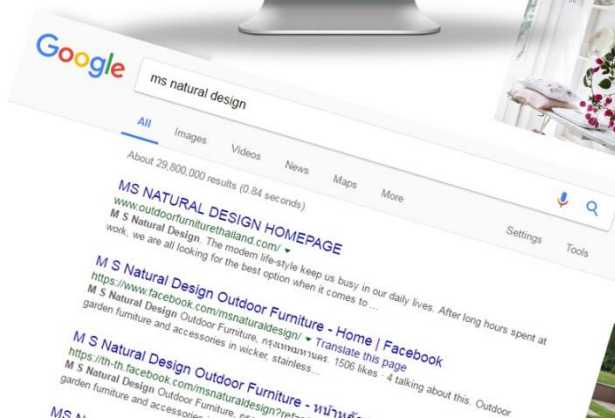

Website Design & Development | UI & UX | SEO | Online Advertising

MS Natural Design established since 2004, grow from home decor products and home furniture for several years. MS Natural Design always aware to the customer requirement under our concept. "Happy living home" Sometime eating outside the home, lay down next to swimming pool eat snack with the family on vacation or take a nap in the garden on exclusive furniture.

The client would like to develop the website which was easy to find the products inside for visitors, and ready for SEO structure. We provided the perfect structure for Google. As the time passed, the website ranking soared onto the higher ranking without any special technical.

Nowadays, the website has been designed and developed since 2014; it can be used and managed by the Web Admin without any technical help. They can insert, edit, or delete the database easily.

www.outdoorfurniturethailand.com

FONG FONG, 2014, 2015

Business: Tobu (Soy) Drink & Veggie Products

Website Design & Development | UI & UX, SEO | e-Commerce (WooCommerce) | Photography

Fong Fong is the one of the biggest healthy drink in Thailand; they produce soy milk with tofu sheet for convenience stores drinks.

The objectives of Fong Fong website is to promote the Brand in public section, do SEO for Search Engine by On-page optimization technique, and designed and developed the e-Commerce for selling Veggie food for their family business. We could help them to promote their website onto the higher and higher ranking of Google Search with many keywords. The result makes the clients happy because we spent 3 – 4 months to make the website going up higher ranking and for other keywords, the website is in the first page. Moreover, the web admin can manage the website himself without any help from us.

www.fongfong-tryme.com
www.fongtaohu2480.com

STAFFERS, 2014, 2015, 2017

Business: Recruitment Consultants
Graphic Design | Printing, Domain & Hosting | Website Design & Development | Online Ad (GSN, Facebook)

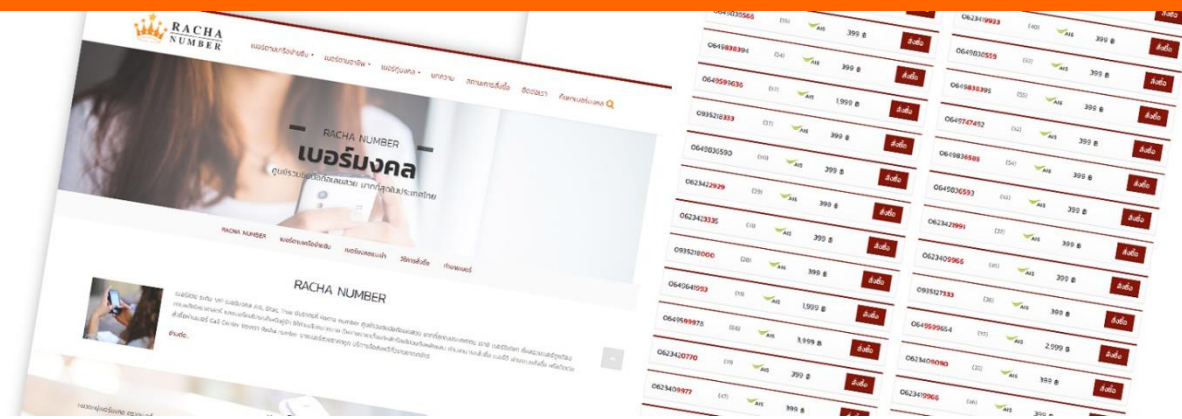

At **Staffers**, we pride ourselves in giving every client excellent service. Our recruitment and outsourcing service is created and customized to meet clients' needs so that they can efficiently delegate non-core activities to Staffers.

We had many chances to support Staffers to complete their mission. We help them to do Design & Printing for Brochures (x5+), Domain & Hosting for www.staffers.co.th, and assist them for LOTTE Project to promote the job available. We used the GSN and Facebook Ad to draw candidates to apply for this job by focusing the personal qualification. We tried to keep the CI and Concept of Staffers brand.

For these projects, we can help Staffers team to achieve their targets in many projects. Staffers give us the trust to allow us help them continuously.

www.staffers.co.th

RACHA NUMBER, 2017, 2018

Business: Sim Card Reseller

Website Design & Development | UI & UX | Online Order | Online Ad (GSN)

Racha Number is the biggest mobile phone number (Sim Card) of Eastern. They has many Sim Cards from many network and great number for shopping for those who is looking for Beautiful, Charming, Great Numbers.

They would like to establish the website system for selling on the Shop and promote through to the website by Google Adwords(GSN). This website could increase the chance of selling the number of public area which differed from the previous. Furthermore, the website covers the Buying (Cart) which is easy for visitors for shopping. For this project, our client is those who can spend their time on the system in order to post and manage the Mobile Numbers . This result is they has the management system for selling; moreover, the GSN can increase the total revenue in total.

Now, we have a chance to add new menu on the existing website.

www.rachanumber.com

THAMMASAT BUSINESS SCHOOL, 2017

Business: Education

Training | Online Advertising (GDN, GSN, Facebook, Advertorial) |

Online Marketing | Google Analytics

Thammasat Business School is the top of business school in Thailand, providing the high standard quality of education, certified by AACSB and EQUIS

in this project, we help TBS to promote the Master Program in Business Administration of Thammasat University in 2017-18. We help the faculty

- To analyze the target group for high class study
- To plan the media spending in each channels
- To design the Banner for Online Advertising both GDN and Facebook
- To create the Text Ad for Online Advertising in GSN
- To create the Advertorial Content
- To summarize the result and optimize the plan

With our intention, we can serve the best quality of work, delivering to our client (TBS)

JTI, 2017 - 2018

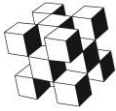

Business: Multi-International Company

Social Media | Online Advertising | Graphic Design | Content Development

JTI - Japan Tobacco International is the international tobacco division of Japan Tobacco, a leading international tobacco product manufacturer. The company is headquartered in Geneva, Switzerland and sells its brands in 120 countries.

The HR Department of JTI would like to let us help to develop the Facebook Management. We help them by providing Content and Graphic Design on the Facebook Management in order to promote the movement of HR Department. The main objective is to promote the company for attracting new candidates for job positions. Some month, we help to announce the Facebook Fan Page by using Online Advertising (Ad Manager).

We are happy to work together in forms of annual contract.

INTRIGUE (3BB), 2013 - 2017

Business: Marketing Agency
Online Advertising | Online Marketing | Facebook Ad |
Google Ad | YouTube Ad

Intrigue is a Marketing Organizer who can work and organize the events for multi-national companies establishing in Thailand. They work both in Bangkok and Up-countries.

In this project, Intrigue has given us to support them to manage their well-known company: 3BB. We has moderated the job in parts of Online Advertising and Online Marketing since 2013 every months continuously. The advertising focuses on both Google Display Network, Google Search Network and Facebook Adverts.

With our service which we have carefully monitored the online campaign, the ranking of 3BB website is growing up to 212th ranking (Alexa, 22/05/2017). Moreover, Intrigue trusts our team to be a Online consultant for special projects for their Marketing Campaign.

CHUCHAI BURI

Sri Amphawa

CHUCHAIBURI, 2015

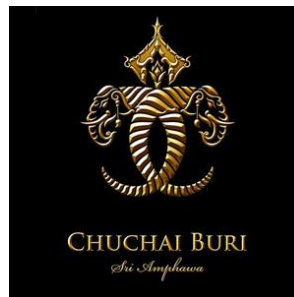

Business: Attractive Places

Online Advertising (GDN, GSN, Facebook, Advertorial),

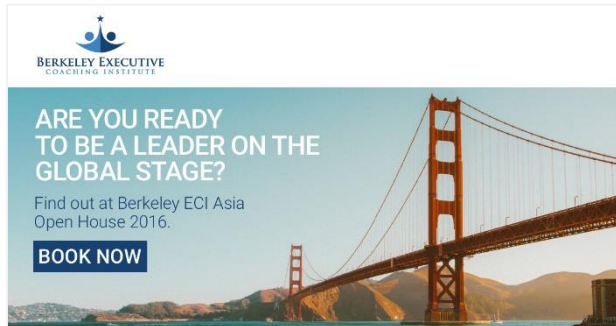

Online Marketing, VDO Production, Website

Chuchaiburi is the new landmark of Amphawa, Samut Songkhram. This place is the project of Khun Chuchai, jewelry shops in Bangkok.

In this project, we help the place to promote to wide target group to understand the background and intention of the project. We develop the online marketing in Loy Krathong and Christmas festivals in 2015. We started since planning the target group till optimization. The project included VDO Production, Facebook Administration, and Website Design and Development. Moreover, we create the website with Back-end for their staff to easily use.

www.chuchaiburi.com

BERKELEY ECI, 2016

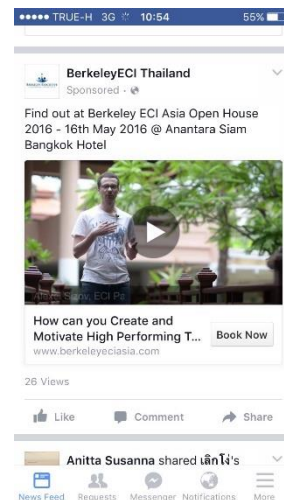

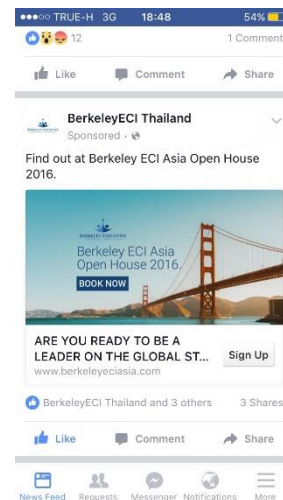

Business: Education

Online Advertising (GDN, GSN, Facebook, LinkedIn) | Online Marketing

Berkeley Executive Coaching Institute is the prestige education, providing the Leadership and Coaching Certification around the world. Their courses are organized in wide range of CEO training classes.

In Thailand, BECI comes to open the executive class. We, on half of online media agency, have the responsibilities to provide the online media plan to BECI. The plan is consisted of targeting the target group on Online segmentation, planning the media plan, designing the banner ad, implementing the advertising and summarizing the results and optimizing the plan.

On the plan, we can create traffic to the landing page

DPO, 2013 - 2018

Business: Dairy Product

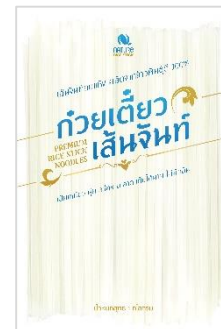

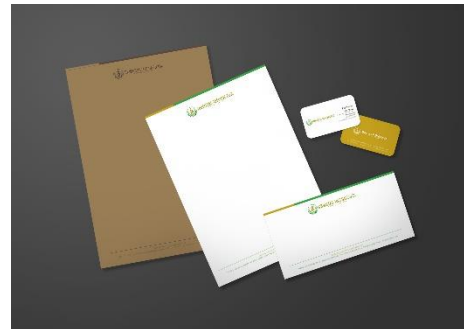

Graphic Design | Packaging Design | Research | Mobile Application

DPO or Thai-Denmark is the oldest dairy brand of Thailand. Their objective is a non-profit organization which promotes dairy career, and sell the packaged UHT milk.

DPO allowed us to work with them for many projects

- Mobile Application: for clients to play the Mobile Application in order to promote Brand activity by using AR Technology (before Pokemon Go!)
- Research & Packaging Design: to research and design the main product packaging for UHT and Yoghurt milk
- Brand Book: for their staff to use as the brand guideline use for Marketing proposes
- Packaging & Marketing Material Design: to design the Packaging and marketing materials for events such as Morganic etc.
